25X1X

1. In August 1950 a unit of about 100 reservists, which belonged to an AAA unit quartered there, was located in a cantonment in Ceska Lipa (O 51/F 75). The parent unit stayed in the Kaiserwald maneuver area in August 1950. *
2. The unit was composed of an engineer and a chemical defense platoon. It was trained with German chemical defense equipment and armed with German submachine guns. **
3. Prior to the discharge of the reservists an exercise designed against enemy parachutists was held in the vicinity of Ceska Lipa.

25X1A

- * [REDACTED] Comment. This is the first report on an AAA unit in Ceska Lipa.
- ** [REDACTED] Comment. The reported organization of the unit makes it improbable that it should have been assigned to an AAA unit.
